

MAINROAD GROUP

## SPR

### SAANICH PENINSULA RENTALS

SPR is a construction equipment rental company and a fast growing traffic management company. SPR is located in Sidney on Southern Vancouver Island and has been serving the area since 2004. In 2008 SPR was added to the Mainroad Group of companies.

SPR has become well known for providing a high level of service to its clients. Its rental department has the available resources and connections to provide any piece of equipment that is required.

SPR is quickly becoming one of larger traffic management companies serving the lower half of Vancouver Island from Duncan to Port Renfrew and back out to Sidney.

The association with the Mainroad Group of companies has provided access to equipment and expertise and allowed them to become an efficient and knowledgeable traffic control company. It has also provided the opportunity to assist many of the other Mainroad companies in their equipment and traffic management requirements.

SPR has taken great strides to build relationships with other local companies in both the traffic management and equipment rental fields, therefore providing a large pool of resources available to them.
